## A COUNTRY CLUB

THAT IS AS UNIQUE AS ITS MEMBERS

AMP is the first green, sustainable motorsports country club of its kind for performance cars, motorcycles and karts. Situated in the foothills of the North Georgia mountains -- just one hour from the city -- AMP's two-mile, Formula One designed road course provides a destination for Members to legally drive their car fast in a controlled environment, all while sharing their passion with like-minded motorsports enthusiasts. Combining exclusive events with extensive track time and luxury amenities, AMP provides access to a whole new lifestyle to be enjoyed with family, friends or clients.

## ROAD CIRCUIT

Designed by Formula One track architect, Hermann Tilke, AMP's main circuit is an exciting and technical course consisting of 16 turns and 98 feet of elevation change. In fact, Tilke drew inspiration from two world renowned turns and tracks - The Carousel at the Nürburgring and Eau Rouge at Spa Francorchamps - when designing Turn 4 and Turn 16. The road course is perfect for both novice and experienced drivers.

## KART CIRCUIT

AMP's .85 mile circuit features 43 feet of elevation change, more than any other circuit in the entire world. Monthly Kart Schools provide entry-level insight into the sport of racing that's fun for the entire family. Karting can be enjoyed by anyone aged 5 and over, with karts available for all skill levels. AMP offers Karting Memberships, Corporate Events and a monthly family-friendly race series.

## SKID PAD

Complete with a 7 1/2 degree incline ice hill and a 200- foot asphalt skid pad, our Driver Development Centre is the perfect forum for the novice or expert driver to practice maneuvering and control skills. Experience the challenge of keeping your car under control on a fully functional wet skid pad, complete with computer controlled water jets and a low friction surface.
